Processed Cheese

Kraft Foods are experts in processed cheese and have the capabilities to produce to the highest quality standards.

Product Code	Product	Pack Size	Description/Application
38400	10kg Hi Melt Cheese	10kg	Modified Melt characteristics ensure this product maintains its body and structure in medium to high heat. Great in smallgoods and other meat products.
44991	Shred N Melt Cheese Food	10kg	Using a natural cheese base we have created a consistent, cost effective alternative to Cheddar Cheese. Great in bakery and fast food meals.
Various	Processed Slices	Various	Experts in processed slice on slice Kraft have numerous products with differing slice weight and melt properties to suit any requirements.

Cream Cheese & Neufchatel

Kraft offers a range of cream cheese varieties providing smooth, creamy taste and consistent quality. Kraft cream cheese is a versatile product suitable for a range of sweet and savoury applications.

Product Code	Product	Pack Size	Description/Application
40824	Philadelphia Cream Cheese	23kg	The Cream Cheese natural fermentation process results in a rich & creamy, rounded cultured flavour that is not tart or acidic. The process also results in a softer texture requiring less beating and blending.
71550	Light Cream Cheese	23kg	
44783	Extra Light Cream Cheese	11.5kg	
26545	Neufchatel Cheese	11.5kg	Neufchatel provides a creamy, pale “cream cheese” style product, lower in fat creating a soft texture which is easy to blend. The Dip ‘n’ Dessert product provides a versatile, cost effective cream cheese alternative.
40815	Neufchatel Cheese	23kg	
40860	Neufchatel Dip n Dessert	23kg	
40890	Neufchatel Smooth n Creamy (lower fat)	23kg	

Yeast Extract

Kraft’s range of Yeast Extract (powder & spread) contains only natural vegetable seasoning and has strong and clean flavour.

Product Code	Product	Pack Size	Description/Application
14111	Spray Dried Vegex Yeast Extract	12kg	Add flavour to snack foods and depth to stocks, sauces and pies etc.
19457	Vegex Yeast Extract	225kg	

Mayonnaise

Kraft offers a complete range of Mayonnaise with products varying in fat content levels and packaging formats. They all provide consistency and excellent cling.

Product Code	Product	Pack Size	Description/Application
13250	Real Egg Mayonnaise	19kg	For a rich, creamy flavour, with a touch of spice the Real Mayo provides a firm, smooth body.
43085	Premium Mayonnaise	21kg	Our Premium mayonnaise provides a tangy flavour, sweet fruity aroma, binds to add body and texture and has 9.5% fat content.
50185	Free Mayonnaise	3 x 5kg	Combines the tangy taste of the premium product that is 97% fat free and no cholesterol perfect for fat and cholesterol restricted product applications.

Biscuit Crumb

With a range of crumb varieties there is sure to be a product to suit your application needs.

Product Code	Product	Pack Size	Description/Application
44884	Biscuit Crumb	12.5kg	This traditional style crumb is an excellent addition to any cheesecake, and is suitable texture for use in baked and chilled slices. Biscuit Crumb has a higher fat content than Fine Biscuit Crumb.
44885	Fine Biscuit Crumb	12.5kg	An appropriate choice for flans, tarts and cheese cakes where the crumb is used to line the base and sides of the mould, or simply where a finer textured crumb is desired, with lower fat content.
44886	Graham Biscuit Crumb	12.5kg	With a hint of spice and delicious buttery flavour, this crumb is particularly well-matched to traditional bistro-style baked cheesecakes, fruit pies and flans, especially apple and berry. A higher fat content means the amount of added shortening can be reduced.
44887	Choco Biscuit Crumb	12.5kg	A simple solution when a chocolate crumb base is required. This great tasting crumb will compliment all types of chocolate fillings, as well as coffee and liqueur fillings for cheesecakes, slices and flans.
44908	Premium Chocolate Diced Crumb	12kg	Delicious dark chocolate biscuit chunks perfect for cookies and cream style fillings for cheesecakes and slices, or folded through ice-cream and milk drinks. High level of cocoa ensures a distinct chocolate taste, retaining shape and texture.
